## SUMMARY

I have a proven track record of developing and executing user interfaces that blend visual appeal with smooth functionality as a talented front-end developer. I am proficient in HTML, CSS, and JavaScript with an advanced understanding of web development technologies and best practices. I have honed my skills in creating visually attractive and easy-to-use websites and web applications. I am skilled in working with cross-functional teams to build high-quality digital products, including designers and back-end developers. With a strong desire to keep current on the latest developments in the field, I am committed to always improving my abilities and contributing to excellent user experiences.

## EXPERIENCE

### Front-End Developer

Grand M. VN Company - Nha Trang, Vietnam

June 2022 - July 2022

- Created an end-to-end E-Commerce website for clients using ReactJS with Fake Store API.
- Developed and launched a new website using ReactJS, resulting in a 30% increase in website traffic.
- Optimized website loading times by 40% through the implementation of front-end performance optimization techniques.
- Collaborated with the design team to create a user interface for the website, resulting in a 50% increase in page views and a 25% increase in time spent on the site.

## PROJECT

### MicroRaptor

Swinburne University of Technology - <https://develop.d36giq031mp620.amplifyapp.com/> | March 2022 - November 2022

- Developed a new website for clients using NextJS and PostgreSQL for data storage of users, projects, messages, and settings.
- Improved website performance by an impressive 70% surpassing all previous expectations in online performance.
- Strengthened the security of users' data by implementing robust authentication and authorization, mechanisms, including Google Auth, ensuring the trustworthiness of the platform.
- Improved site performance by reducing page weight and load times, resulting in a 30% decrease in bounce rates.
- Provided ongoing optimization for the new website to ensure the best customer experience.
- Implemented a mobile-responsive design, increasing mobile traffic by 45% and improving the user experience for donors on mobile devices.

## OTHER EXPERIENCE

### Stock Organizer

Coles Supermarket - Melbourne, Australia

December 2022 - February 2023

- Ensured the products are organized, clean, and visually appealing to customers.
- Assisted customers with finding products, answering questions, and resolving issues.
- Reorganized shelves and restocked inventory in a timely manner, maintaining store appearance and increasing efficiency by 15%.
- Utilized inventory software to track stock levels and restocked as items become low.
- Directed buyers to the right destination and organized product displays accordingly.

### Waiter

Sushi Jiro - Melbourne, Australia

January 2022 - September 2022

- Collaborated with kitchen staff to ensure timely and accurate delivery of food.
- Maintained a clean and organized dining area in less than 2 minute, including resetting tables and preparing for the next guests.
- Provided exceptional customer service and resolved any concerns.
